Course Introduction

This 5-day intensive course provides a comprehensive overview of copyright law in the digital age. Participants will gain a deep understanding of copyright principles, legal frameworks, and best practices for creators, businesses, and educators in the digital environment. The course will cover a wide range of topics, including copyright infringement, fair use, licensing, digital rights management (DRM), and emerging legal challenges in the digital world.

Training Method

- Pre-assessment
- Live group instruction
- Use of real-world examples, case studies and exercises
- Interactive participation and discussion
- Power point presentation, LCD and flip chart
- Group activities and tests
- Each participant receives a binder containing a copy of the presentation
- slides and handouts
- Post-assessment

Course Objectives

Upon successful completion of this course, participants will be able to:

- Understand the fundamental principles of copyright law: Recognize the scope and limitations of copyright protection.
- Identify and analyze copyright infringements: Recognize and evaluate potential copyright infringements in various contexts.
- Apply the fair use doctrine: Understand and apply the fair use doctrine in different scenarios, such as education, research, and criticism.
- Navigate copyright licensing agreements: Understand different types of copyright licenses (e.g., Creative Commons, exclusive licenses) and negotiate licensing terms.
- Implement effective copyright management strategies: Develop and implement strategies for protecting and managing copyrighted works in the digital environment.
- Understand the legal and ethical implications of copyright in the digital age: Explore emerging legal challenges, such as copyright infringement on the internet, piracy, and the impact of artificial intelligence on copyright.
- Stay informed about current legal developments: Keep abreast of the latest legal developments and best practices in copyright law.

Who Should Attend?

This course is designed for a wide range of professionals and individuals interested in understanding and navigating copyright issues in the digital world. Ideal candidates include:

- Creators: Artists, musicians, writers, filmmakers, photographers, software developers
 - Business Professionals: Marketing professionals, business owners, entrepreneurs, legal professionals
 - Educators: Teachers, professors, librarians, instructional designers
 - Students: Law students, graduate students, and undergraduate students in relevant fields
 - Anyone who creates, uses, or manages copyrighted materials
-
