Course Introduction

This 5-day intensive course delves beyond the foundational principles of Agile and explores advanced tools and techniques for successful project execution. Participants will gain a deeper understanding of Agile methodologies, including Scrum, Kanban, and Lean, and learn how to effectively apply them in complex and dynamic environments. The course emphasizes practical application, with hands-on exercises, case studies, and simulations designed to enhance participants' ability to lead and manage Agile projects effectively.

Training Method

- Pre-assessment
 - Live group instruction
 - Use of real-world examples, case studies and exercises
 - Interactive participation and discussion
 - Power point presentation, LCD and flip chart
 - Group activities and tests
 - Each participant receives a binder containing a copy of the presentation
 - slides and handouts
 - Post-assessment
- 

Course Objectives

Upon successful completion of this course, participants will be able to:

- Master advanced Agile methodologies: Gain in-depth knowledge of Scrum, Kanban, Lean, and other emerging Agile frameworks.
- Develop and implement effective Agile strategies: Learn to tailor Agile principles to specific project needs and organizational contexts.
- Improve team collaboration and communication: Enhance team dynamics and foster a culture of continuous improvement within Agile teams.
- Utilize advanced tools and techniques: Master the use of Agile tools, such as Jira, Trello, and Confluence, for project planning, tracking, and reporting.
- Lead and manage complex Agile projects: Develop the skills and confidence to successfully lead and deliver complex projects within Agile frameworks.
- Resolve challenges and overcome obstacles: Learn to identify and mitigate risks, resolve conflicts, and overcome common challenges encountered in Agile projects.
- Continuously improve Agile practices: Develop a framework for continuous improvement of Agile processes and methodologies within their organizations.

Who Should Attend?

This course is designed for :

- Project Managers
 - Scrum Masters
 - Product Owners
 - Agile Coaches
 - Team Leads
 - Developers
 - Business Analysts
 - Anyone involved in the planning, execution, and delivery of Agile projects
- 

Course Outline

Day 1: Foundations of Advanced Agile

- Morning:
 - Review of Agile Principles and Values
