Course Introduction

This 5-day intensive course equips project managers with the advanced financial acumen necessary for successful project delivery and organizational success. Participants will gain a deep understanding of key accounting principles, budgeting techniques, and financial management strategies specifically tailored to the unique demands of project environments.

Training Method

- Pre-assessment
 - Live group instruction
 - Use of real-world examples, case studies and exercises
 - Interactive participation and discussion
 - Power point presentation, LCD and flip chart
 - Group activities and tests
 - Each participant receives a binder containing a copy of the presentation
 - slides and handouts
 - Post-assessment
- 

Course Objectives

Upon successful completion of this course, participants will be able to:

- Understand key accounting principles and their application to project finance.
- Develop and manage project budgets effectively, including cost estimation, budgeting methods, and variance analysis.
- Perform financial analysis of project performance, including earned value analysis, cash flow forecasting, and return on investment (ROI) calculations.
- Identify and mitigate financial risks associated with project execution.
- Make informed financial decisions that optimize resource allocation and maximize project profitability.
- Communicate financial information effectively to stakeholders, including senior management and clients.
- Integrate financial considerations into all phases of the project lifecycle.
- Enhance their decision-making abilities by leveraging financial data and analysis.

Who Should Attend?

This course is designed for experienced project managers, aspiring project managers, and other professionals involved in project management, including:

- Project Managers
 - Project Engineers
 - Program Managers
 - Project Controls Specialists
 - Financial Analysts
 - Business Analysts
 - Anyone involved in project planning, execution, and monitoring
-
