Course Introduction

This 5-day intensive course is designed to empower managers with the essential financial acumen and practical skills needed to drive informed decision-making and enhance organizational performance. Participants will gain a comprehensive understanding of core accounting principles, budgeting techniques, and financial analysis tools, enabling them to effectively manage resources, control costs, and contribute to the financial success of their organizations.

Training Method

- Pre-assessment
- Live group instruction
- Use of real-world examples, case studies and exercises
- Interactive participation and discussion
- Power point presentation, LCD and flip chart
- Group activities and tests
- Each participant receives a binder containing a copy of the presentation
- slides and handouts
- Post-assessment

Course Objectives

Upon successful completion of this course, participants will be able to:

- Understand fundamental accounting principles and financial statements.
- Develop and manage effective budgets that align with strategic objectives.
- Analyze financial data to assess performance and identify areas for improvement.
- Interpret financial reports and communicate financial information effectively.
- Apply cost accounting techniques to optimize resource allocation and control expenses.
- Utilize financial analysis tools to evaluate investment opportunities and make sound financial decisions.
- Understand the impact of financial decisions on profitability and cash flow.
- Implement effective financial controls and risk management strategies.
- Integrate financial considerations into day-to-day management decisions.

Who Should Attend?

This course is designed for managers and professionals who are responsible for financial decision-making, including:

- Department Managers
 - Project Managers
 - Team Leaders
 - Business Unit Managers
 - Operations Managers
