Course Introduction

This 5-day intensive course equips service managers with the advanced knowledge, skills, and tools to optimize service delivery, enhance customer satisfaction, and drive operational excellence. Participants will explore best practices in service operations management, including process improvement, customer experience management, resource optimization, and team leadership.

Training Method

- Pre-assessment
 - Live group instruction
 - Use of real-world examples, case studies and exercises
 - Interactive participation and discussion
 - Power point presentation, LCD and flip chart
 - Group activities and tests
 - Each participant receives a binder containing a copy of the presentation
 - slides and handouts
 - Post-assessment
- 

Course Objectives

Upon successful completion of this course, participants will be able to:

- Understand the key principles of service operations management and their impact on customer satisfaction and business performance.
- Analyze and optimize service delivery processes to identify and eliminate bottlenecks and improve efficiency.
- Develop and implement strategies for enhancing customer experience across all touchpoints.
- Effectively manage service teams and foster a high-performing service culture.
- Utilize data analytics and performance metrics to monitor service performance and identify areas for improvement.
- Apply lean principles and other process improvement methodologies to service operations.
- Develop and implement strategies for managing service disruptions and ensuring business continuity.
- Lead and motivate service teams to achieve operational excellence.
